

## Release Criteria Checklist - Open Government Canada

This form is a tool to ensure that an analysis of legal and policy requirements has been completed prior to the release of data to the public and internally. It also documents the approvals required for the release of the resource on open.canada.ca (Open Data, and Open Maps - OGP Open Government Portal available to the public) or Federal Geospatial Platform (FGP) only for spatial records, internal to GC.

Metadata/Resource Name	Description	Release Platform
Electrofishing Data from the Miramichi River, New Brunswick (SFA 16)  19ac6b3e-514a-2d27-e7f6-bb32afc964b4	Indices of freshwater production are derived annually from electrofishing surveys in the Miramichi River of New Brunswick. Juvenile salmon abundances at sites, in terms of number of fish per habitat area sampled by age or size group (densities), are obtained using successive removal sampling or catch per unit effort sampling calibrated to densities. Sampling intensities vary among years and among rivers.	OGP

### Release Criteria Checklist - Mandatory that all answers are YES to publish!

#### Legal / Licensing / Copyright

1. There are no known legal, licensing, or copyright restrictions to prevent the data or information from being released by the department or agency under the terms of the [Open Government Licence - Canada](#).
